

## MINUTES

### BEEBE RIVER WATER & SEWER COMMITTEE

September 23, 2020

The Beebe River Water and Sewer Committee met at 9:30 a.m. via Zoom. Members of the committee present were Cindy Klevens from NHDES, Robbie Welsh, Carina Park and John Benham from Pump Systems. Also present were Ken Goode from Granite State Rural Water Association and Donna Lane CBDG grant administrator.

Cindy Klevens introduced Donna Lane a CBDG Grant Administrator. Donna had worked on grants for Beebe River in the past. Donna expressed concerns that Beebe River has already received CBDG grant funding twice in the past totaling approximately 1 million dollars. In addition, she also has concerns that the project being proposed is too small for consideration. Donna explained that there will be upfront costs associated with the application and encouraged the Committee to consider whether or not it's worth spending the Trust Fund money, in the event the application is denied.

The Committee discussed whether or not to move forward with the application or to spend the allocated funds from the Trust Fund. The Committee agreed to hold off on spending the Trust Fund money until the spring.

The Committee discussed collections and the delinquent accounts.

Ken Goode presented a quote from Jake Dawson for the installation of 5 shut off valves. The Committee asked Ken to go back to Dawson for a revised quote.

Approval of Minutes: John Benham made a motion to approve the August minutes. Robbie Welsh seconds the motion. Motion passes by unanimous vote.

The Committee scheduled the next meeting for October 21, 2020 at 10:00am.

Adjourn: There being no further business the meeting adjourned at 10:29 a.m.

Respectfully submitted, Carina Park, Town Administrator
